- ◆ **CW-264T\*** Mini surface mount, terminals, with hidden mounting screws

- ◆ **CW-244\*** Overhead door contact with adjustable L Bracket, 3" wider gap & 22" armored cable

## Splice Connectors

Cynwyd has provided the finest quality connectors for over ten years. Our first product was the B-wire connector, which continues to be one of our best sellers. Nickel-plated, tempered phosphor-bronze connection element provides a strong, reliable connection,

### B-wire connectors

- ◆ **CW-101B** B-wire with moisture-resistant sealant (gel), blue or white. 1000/box, 100/bag. Also available in 250/bag and 500/bag upon request.

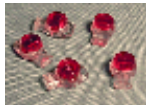

- ◆ **CW-102W** B-wire, plain (dry), white, 1000/box, 100/bag. Also available in 250/bag and 500/bag upon request.

- ◆ **CW-101BP** B-wire, sealant, blue or white, 500 in a reusable plastic case
- ◆ **CW-102WP** B-wire, dry, white, 500/plastic case

### U-series connectors

Finally, reliable **and** affordable UR/UY/UG splice connectors. Proven, dependable, and simple butt and tap/bridge splicing of solid copper telco and security wire from AWG 19-26. NO stripping of wire!

	Part	Wire range (AWG)	Number of ports	Description
	◆ <b>CW-UR1</b>	22-26 insulated solid wire	3	Butt splice connector, sealant-filled, for 2 or 3 wires. Different size wires may be spliced together.
	◆ <b>CW-UR2</b>	19-26 insulated solid wire	3	Splice butt connector, sealant-filled, for 2 or 3 wires. Different size wires may be spliced together.
	◆ <b>CW-UY</b>	22-26 insulated solid wire	2	Butt splice connector, sealant-filled, for 2 wires. Different size wires may be spliced together.
	◆ <b>CW-UY2</b>	19-26 insulated solid wire	2	Butt splice connector, sealant-filled, for 2 wires. Different size wires may be spliced together.
	◆ <b>CW-UG</b>	19-26 insulated solid wire	2	Tap splice connector, sealant-filled, for 2 wires. Different size wires may be spliced together.

## RJ31X Jacks & Cords

With the wide-spread use of DSL high-speed internet service, the RJ31X jack becomes a single point of failure. Inferior quality jacks can promote corrosion and result in degraded phone and/or internet service, and an expensive service call.

All Cynwyd jacks and cords meet industry specifications, to ensure reliable service. Our jacks feature:

- ◆ 50 u" gold plated pins
- ◆ Meets FCC Part 68 regulations
- ◆ UL listed

***New product! – now available in a unique 4-wire (8P4C) configuration. Eliminates unnecessary wires and screws, simplifies installation, reduces errors.***

- ◆ All 8P4C jacks and cords are wired for pins 1,4,5, and 8 to maintain plug compatibility with standard 8P8C jacks and cords.
- ◆ Also available in standard 8P8C versions – to provide optional tamper protection.
